How It is Done in Fresno Establishments.

PUT UP BY WHITE LABOR.

Ornamented With Silk

thirls, young girls, old girls, young terris, young girs, an greas, young women and old women, prefty, blondes and brunettes, some not so prefty and none ngly, stood over the long tables picking rations out of the sacet baxes and carefully pressing them into the

the aisles and reached to the roof. Slanding by there piles were men nailing up the hoxes arready filled with London layers and loose Muscatels. After the were nailed on the hoxes they were handed to a man who planed the edges of each cover flush with the sides of the box and beyrled each corner.

This was the scene that met the gas of a Republicas reporter vesterday after noon in the packing-house of the Fresno were getting ready to had up the special raisin train that left last night.

FACING.

The top layer of these is "fraced" or smoothed by hand, the losse, large raisins being pieced carefully side by side and present dat by the thumbs of the fair packers.

and pressed that by the trumos or fair packers.
A visitor yesterday, who watched the operation, exclaimed: "I would! were a loose Massfell"
The box-rovers are printed on a cylinder press very much like those used in job printing offices, the type, or rather the plate, being fixed to the cylinder and the thin sheets of pine wood being fed by hand to the machine in the usua way.

fed by hand to the macrine or the toward way.

Christmas cartoons in paper boxes, each containing two pauleds of loose Muscatels, are being put up in large quantity, as the demand for them is steadily increasing. They retail at its cents a box. The very largest and the finest rations are used for those cartoons, and the bottom layer is equally as large and as good as the lop.

CAMPELL WORK.

carloads a day. One hundred tons of irest crop raisins yet remain unpacked in this astablishmont. The next place visited was the unpretentions one of Charles C. Lesilo, where sixty-seven hunds, mostly women and girls, are employed. The average output of this establishment is four cars a week. This place, like the one less mentioned, is neat and clean, dropped raisins being carefully swept off the those and thrown away. The brands used in this establishment are the Liberty for first quality. London beyers and the Royal for second grade missins. Third grade raisins are nucled loose and shipped in sacks. Most of these sacked raisins are repacked into boxes when they reach the Eastern market.

There is a disposition on the part of the majority of the packers to suck all but the first quality of loose raising. This will save a large expense for boses and labels as well as for labor, and loose raisins keep as well in sacks as in bose raisins keep as well in sacks as in bose. The Children labish and Fruit Company's house was visited next. Two dudried hands are employed, and the output is from fifteen to twenty carloads a week. Special tables have been made for the girls and women employed bergins and the control of the same than the same first the following diagram will give an industributed light idea of the shape of the tables, looked at from the end.

The boxes are laid on the slopes A. B. B. A. and the packer sits on a bench. The work bring less fatiguing by this nothod, the packers turn out more boxes in a given time than they would if they were obliged to stand and sloop.

CHRISTMAS CARTOONS,

Mr. Langley, of Cook & Langley, was xumining some taking that had just ar-ived in the sweat boxes as the reporter

examining some classification and post arrived in the selvent boxes as the reporter entered.

"Take them back again; I don't want them," said Mr. Langley to the driver. The raisins were distry and sandy, and they would have to be passed through the stemper to clean them. This processor course would destroy the London layers, and herve only loose Matsaches. Two brands are used in this house the Horseshot and the Life. About 300 hands are employed and the output is should five carback a day. Two-pound cuttoms are also being pill up in paper boxes for the holiday trade.

The system of packing is somewhat different from that pursued in the other houses. The top layers are not pressed down tightly, but are laid in loosely. Then the boxes are turred meiab down, and the weight of the other layers fattened the top layer all that is necessary.

WEUMETER'S CHILD.

WEHMEYER'S CHILD.

Ontiverss, the Tamale Man, in Trouble About It.

Shortly after heaving his office hast evening Recorder Prince was accosted by Jesus Ontiveras, who excitedly told him he wanted him to return to his office, as he had a very complicated case for him to attend to. He said that tw white men had come to his home, on the corner of Freeno and J streets, and had demanded of him little Freddie Weh-meyer, a bright-eyed bay one and a hali meyer, a fright-open hay one and a var-years old, who had been left in his charge over four months ago. Outiversa better known as "Tanade Joe," caught hold of the sleeve of the Recorder and the two walked to the utilice of the latter in the City Hall, when he ield the fel-

ontiveras did as instructed, and the strangers soon after left town.

Returning to the Recorder an hour mere, Outriceas related this bit of interessing meas which he had obtained during his absence, but from what source the did not state:

"Fred Webmayer is truly the father of the child left at my house, and besides that, while he is still married, his wife that had July and is now in San Francisco. They were married three years any since which time, with the exception of the four months last hast, they have resided in Kingsburg. The wife's moralen name was Annie Rewlin. She bush her parents during the horrible Telanciapi railroad disaster nearly even years and successions. She is described as being unusually handsome, of medium height, with large histrous blue eyes that are full of expression, set off with a perfect blonde compexion.

DENICKE ON TOP.

ment in the Fresno Postonice are increasing every day. The last has reference to the case of D. D. Davison. He received a letter by carrier last Monday night, which should have been delivered eight or alm days ago. The letter was dated to tother 2d, was postunated "San Francisco, October 2d," and was postunated "Fresno, Delober 5th." It was delivered to Mr. Davison on the tother 14th, erning days afterwands. The letter could have gone by slow freight to New York in the same time.

Said a pruminent attorney last night: "Chala check for over \$233 lie in the Fresno postofice for over two weeks after it had received the postal mark here, and another attorney told me letter a \$450 fee for a semilar failure of dute." The names of these gentlemen will be intenshed the Postonice authorities should their statements be contradicted.

To Cure the Vine Disease.

Cutofer 2d, was postmarked "San Francisco".

The boxes and rartoosa are being put up in a very neat and tasteful manner, the layers being ornamented with later paper, silk ribhaus and the gongeous Seathand. A force of women, who are doing work by the piere, remain working until 19:39 at nodern progress and enterprise sprint of modern progress and enterprise sprint of the large room again and the same time. Said prominent attorney last night; will be a received the postal mark heavy gone-level so that each pack is uniform in quality. In one corner of the large room agroup of women were packing White Adriated figs. The finit is from the ranches of Noble and Waschauter between the extension of the state has found that fertilizing is a finite fast. The reporter was shown one hox packed as a present to the Palm Lef Wheelmen of this city. On the top layer appear the letters P. L. W. in Adriatic figs. In the center of the layer is a layer appear the letters P. L. W. in Adriatic figs. In the center of the layer is a layer appear the letters P. L. W. in Adriatic figs. She Brings Back Her Smiles to Fresno.

AND SUES FOR A DIVORCE

Clerks Figure Prominently

ingler and his wife, Pretty Sophiingler, has broken out airesh.

Francisco, taking two of her foar children with her. The cause of her flight, so she said, was on account of the ill-

Among other things mentioned in the complaint, are that as early as 1878, shortly after the wedding, the husband began beating and bruising his wife, while living in St. Louis, Mo.
During one of these attacks he struck her in the face with his fist, cutting her badly with a ring he had on his finger. The result of the cut is an ugly scar. She says that at other times he broke the household furniture, and in 1886, while in San Francisco, he fore off nearly all her choless.

currier, treateen a cor, and of favors eccived in payment for favors extendr o certain amorous clerks goods stole rom the store.

THE CLERKS WEIR INNOUNT.

These accusations she stoutly denies and alleges that they have been made and of whole cotth by a judous hursband who could see nothing but led in her story action with persons besides himself, or unless with those whom he would select as being suitable persons for her to associate will.

In mond of her shiftmont she away that

select as lang automore persons so that has proud of her salement she says that not long ago her hasband had a scarch warrant issued for the purpose of inching the alleged stolen goods, but, upon the house being scarched from cellar to house being scarched from cellar to atte, the other, with whom the warrant had been placed, nade his return that nothing could be found that would true cetablish my guilt on her part.

Mrs. Engler asks after that she he granted the custody of the four children, the eldest being a girl 14 years old.

letory Achieved by His Faithful

Now thanks be to God, who always can arbumph in Christ.—2d Corinthians 2-14.

This was the text selected by Rev. E

Mr. Chaddock, after referring to the

There was much in the life of Paul, which, while it was passing, would not carry with it the suggestion of victory. The way in which he test Damaseusbeing lot down in a basket at night from the walls of the city to escape the intry of the Jews; the uproar at Epheeus, caused by Alexander, the coppersmith; the disturbance at Phillipps and the being dragged through the city by the infuriated people—all this would appear anything rather than victory. Yet Paul with the remembrance of it all exclasions also gain the content of the content of the cause of the cause

The First Consignment of California
White Figs a Success.

Cuicago, October 16.—Porter Bros. &
Co. to-day sold eighty-from sacks of white
figs, shipped by M. Denicke, from France,
Cal. They brought from 71/4 to 81/4
cents per pound. This is the first shipment of white figs ever made from Land
fornia. The stock was very good, and
brought an average of 12/2 cent per sold more than the imported stock is
selling for.

Mr. Denicke received a telegram from
San Francisco yesterday for figs in sacks
in quantity more than he can fill. Mr.

It might the remainbrance of it all exclasions.

Wicked mae do not always

AGNOSTICISM.

Temperate Essay on That

On reading an article the other day max. I was amused at the hint in noved, unless a was by the later strong up against theological dogmas.

It is too late in the day for those who desire to keep abreast of the times and

desire to keep abreest of the times and of science to fear to present the ideas of the best timbers and speakers of the age, and R. G. Ingersoll is admitted to be chief among these.

Thave heard it repeated that science was destroying religion, which is impossible, as truth is man and eternal, and all that science or classified facts can destroy are the creeds and customs not founded on matural laws, restant only or realitions and false there of the universe and man's true relations in it. I was pleased to note the good reception of B. F. Underwood, the noted likeralist, who is making a tour of California. Nothing conduces so much to the spread of truth and free thought as for sail to meet in a fasternal spirit and distant on the stant of the stant of the spread of truth and free thought as for sail to meet in a fasternal spirit and dis-

perior Ceurt.

Eastern excursions are beginning to arrive at Los Angeles. Fresno will get a full share of all the immigration which comes to the state this winter. Sub-tantial producing capacity is what most new comers are looking for, and Fresno county leads in that.

The citizens of Stavens county, Kan eas, have appealed to the Governor for sus, have appeared to the Governance and, successive crop failures having left them without means of subsistence during the winter. Moral: People should e in an irrigated country, where then is no such thing as a crop failure.

The attitude of New York at present on the world's fair proposition is that of open-mouthed wonder at the enterprise of Unicago in promising \$10,00,000 if the big show is held there. Western liberality always was a source of asion-ishment to the people of the East.

An effort is being made in San Fran cisco to suppress the selling of Louisi and lettery tickels. Two ugents have been arrested and fined \$60 each, and i need arrested and the volume to be add that evidence has been secured to convict about twenty-five more operators. If the law cannot be culorced it should be repealed.

Tux advent of Charles H. Norris, agen for the American Transportation Com-pany, is fraught with much good promise to Fresno. His mission is to establish a cold storage warchouse here, if the citisens will assist him. The Republican has been advocating this project during the past two years.

The well in process of boring for artesian water at Alila has reached a depth of one-fourth of a mile and a twoductive is water for irrigation.

MR. ROCKEPELLER, president of the Shadard (il monopoly, is now reputed to be the wealthisst man in the world. His income is over twenty millions a year. Knowing how difficult it is for a luh man to enter the kingdom of heaven the unfortunate man teaches a class in Sunday school and labors hard to over-come the damning tide of wealth.

The public schools and churches froy, New York, are closed on account of the flee plague. Human nature is so of the flex plague. Human nature is so constituted that it cannot successfully study or worship with a pesky army of devilleh ficas hopping over its anatomy. Prayer for deliverance in such a case could hardly be more than a volent expression of righteous indignation.

Tue meanest thing that has been per patrated for some time is that smart trick of advertising for laborers at \$5 per day at Prescutt, Arizona. A number of workingmen spent their last cent to get workingmen spent their last cent to get page, absintle, or cetera, have made there, only to find that they had been cruelly hoazed. The graceless wretch which brings the news says that "as an errelly hoazed. The graceless wretch

Public opinion is evidently again the licensing of variety theaters in this city. Freeno has had one experience with that gort of institution, and memory of many citizens. It is not known whether the Board will rescind the action that was necessary to rid the town of the former naisance, but there can be no doubt about the wishes of a majority of citizens in the matter.

THE members of the Native Sons of man. the Golden West are considering a proposition of chartering a special train to convey members to the World's Fair as on as the place has been settled upon. It would be a novel sight to see a long train of cars crossing the continent filled with passengers who were all natives of Should the proposition meet with favor, it is almost certain that every Parlor in the state will be largely renresented.

FRESKO is getting much benedicial adfrom all parts of the state, gathering information in regard to our resources but the Grand Lodge has ordered 500 es of The Repondent each day during the week, which are to be Dakois 27,050 were for the Republican distributed throughout the state and the United States. This paper prints a full report of the proceedings of the Grand Lodge, and Fresno thereby gets a con-siderable amount of valuable advertising

A GOVERNMENT RESERVE. At a meeting held in the city hall in At a meeting near in the City man is Visalla on the 10th of October, in re-sponse to a call issued by Tulare Grange, 188, Patrons of Husbaudry, steps were taken with a view to having the Government reserve a large section of moun ment reserve a large section of moun-sia Mouths.

Advertisement seriodatival solvery serior part of Fermo and northeastern part of Tulare counties as a national part, thus securing in its native splendor part of Tulare counties as a national park, thus securing in its native splendor some of the grandest mountain security on the face of the earth. The territory mbraced within the proposed park wit bachide Mt. Whitney, 15,086 in altitude a section of the Palisades with living glacier, heautiful mountain meadows, lakes, streams, waterfalls, and a choice lakes, streams, waterfalls, and a choice grove or two of those wonders of the vegetable kingdom—the "lig trees." But uside from all the pleasures to be gained to the people from such a reservation, there is another and more potent reason why that region should be related in its present condition. The

tained in its present condition. The three rivers which supply this great val-ley with water for irrigation take their rise within the boundaries of the proposed park, and it is a matter of the most vital importance to the agricultural and horticultural interests of Kern, Tulare and Fresno counties that this water supply is in no way diminished. The meeting was not as well attended as should have been, but decided action was taken in the appointment of the folwas taken in the appointment of 100 tol-lowing committee of aim to take such steps as will in their jadgment bring the attention of Congress to the matter: M. R. Madary, Frank Dusy and Thomas E. Hughes of Fresno; S. C. Smith, W. B. Carr and R. H. McMurdo of Kern, and Tipton Lindsay, P. Y. Bakker and G. W. Stewart of Tulare. Stewart of Tulare. National reserve or public parks are

lew indeed in this magnificent land of tew moneat in this magniness tand of the cours, so wonderfully rich to subline and operator that is needed to keep our presentation scenery. The Government has been extremely negligent in the matter layior. been extremely aside and trying to preserve for the pleasure and benefit of our peo-ple either fine stretches of wild wood-land bordering on lakes and streams, where game and fish are abundant in Beason, nor ureas of awe-inspiring moun-tain scenery, with its gorges, snow-capped peaks and intervening struches of verdant meadows or valleys traversed with sparkling streams of icy water, not with spartting streams of the water, not has even sufficient attention been given to the phenomenal in nature to protect the world renowned "big trees of California" from the ax and saw of the yandal. Our tiovernment has been too vandal. Our tiovernment has been loo negligent in these matters. Congress should not let another session go by without an earnest effort to save to the people as a whole a goodly number of the favored spots, now so rapidly passing away, where the tourist, whether in pursuit of health or pleasure may pitch his tent and spend a iew weeks wrapt in the sublime quietude of nature. Among the first parks created should be one in closuring the begingsters of Kings. duding the headwaters of Kings, Caweah and Kern rivers.

The esteemed Stockton Mail thinks it The esteemed Stockton Manthusky it strange that the farmers of the country can be duped year after year into voting for a protective tariff. It is, indeed, atrange that the mest intelligent and best informed class of utilizens in the country should thus persistently uppose their own best interests, especially where there are so large a number natriotic Democratic editors continually talling them of the error of their position and arging them to extricate themselves from rule by voting for free trade. Somehow the idea that home manfactures make a home market for many agricultural products and keep the money at home has considerable in-fluence with the honeat yeomanry. Beinch flow has been atruck. Boring is studied for a larger flow. There is plenty of good land around Allk, and all that is needed to make it richly productly is water for irrication. the soil. Some of the men who then paid their farm hands for their labor with preduce because they could get no money for it, are still in the land of the living, and though their once sinewy frames are weak with uge and their tottering sters are nearing the grave, they are still telling their some and their grandsons that these Democratic editors are mistaken about the benefits of a low tariff.

Strange as it may seem, the evidences of the past and knowledge of the pres-ent has more weight with the toiling masses than the declarations of mugwmno and Democratic editors.

We don't believe that holding up the awful fate of dissipated young men as horrid examples to the rising generation does much good, says the Oakland Times, still the case of Benjamia C. Jones, a young Chicago millionaire, is unusually instructive. Half a dozen years of chamwritten which brings the news says that "an an sharps to draw out of the game. The who is responsible for the anegon love expedient to check his cacesses, in the man who has chased ought to be put on an enforced diet of riage to a worthy young woman was bread and water for a year.

Predictions of the man who has chased for the man who has chased for the put of the man who has chased for the put of the man who has chased for the put of the man who has chased for the man who has Of course the evident moral of the whole on our set to extreme morat of the period is a failure. For would be rash enough to hint that a worthy woman could wish any better luck than the cliance to marry a rich rake and reform him. The Chicago girl, thinks the Albany Journal, who has so ignominionely failed in this noblest mission o an will be the object of an amoun woman will be the object of an amount of scorn only equalled by the sympathy bestowed upon the unfortunate

Freeno county has just had the Grad Lodge of Good Templars in session in her capital city. The delegates were de-lighted with the attention bestowed npon them: they were treated to free rides through miles of vineyards where they saw the raisins drying in the sno and the grapes being hauled from the field to the wineries; they were shown through the raisin packing houses an had their pockets filled with "loose Mus-catels." They preached temperance to varising this week. Not only is a large a temperance people. This same county delegation of intelligent visitors here will have one and three-fourths million college of wine to market from this sea son's vininge in addition to fifteen mill ion pounds of raisins and dried grapes

Or the 39,500 votes cast in North ticket. And so far an heard from there was no shotgun intimidation.

THE Expositor comes out in favor of variety theatres, with "heavily curtained boxes," etc. Of course.

Francisco sent out twenty-eight carloads of raising in one train last week. That's Fresho on Wheele," and no bad advertisement in the East, -- Pomons

imes-Courier. Fresno is "on wheels" the year round, and her wheels of progress are kept in motion by the force of a productive ca-pacity that has no discernable limit Her resources as yet are largely undeveloped.

Tur Delano Courier has great faith in THE LEISTO COURSE has great faith in the Wright strigation law, which is to be tested in that section. It says: "The Fresto people will wait and watch the workings of the various irrigation districts throughout the state, and if they prove satisfactory, and the consumers of water are satisfaed with the distribution, water are sussed with the dark of organi-tation. We have a whole store of hope in the workings of this law, and we be-lieve that it will be but a short time till all the 'irrigated and much of the unrrigated sections of the state are duly formed into districts. We have watched the triumph of the law in every legal fight, and have noted the success attained at every step. It's bound to «iu."

The theory is now advanced that Jay Gontil is backing the war on the Atchison road with a view to ultimately buy-ing it at a low figure. The idea is not ing it at a low neure. The lines in hot allogether improbable. It has the appearance of his familiar handiest order. He is exactly the kind of

OF THE SAME OPINION.

The several hundred visitors who are in Fresno this week as delegates to the annual meeting of the Grand Lodge of the Independent Order of Good Femplars were yesterday taken on a tour of sight-secing through the beautiful colonics and vineyards adjacent to our city. They express the same opinion that is heard rom all visitors who see Fresno and her surroundings for the first time. They spont several hours in their ride, and saw hundreds of happy families living on twenty-acre farms and thousands of on twenty acre fains and wine vineyards flour-ishing side by side. Without an ex-ception we believe they returned fullchock full-oil enthusiasm. And it was enthusiasm straight. A Republicas representative came in contact with sevrepresentative state it to the opin-ions were the strongest things that he discovered. Most of the visitors said that they were greatly surprised; that they had heard something of Fresno's prosperity, but were wholly unprepared to see so many and so great evidences of a growth almost marvelous considering the few years of time which have been devoted to reclaiming a desert and mak-

ing it an agricultural paradise. It was very natural, perhaps, that the upinion should be unanimous among them that it was all brought about by water, but they are none the less correct in that opinion. Water is a good thing-for irrigation, and some other purposes, and is used by many good people as a beverage. Whatever its merits may be for other uses, it is a fact beyond question that water used for irrigation has caused Fresno to bloom and blosseum and grow rich and mighty. Here its offect has been magical. The independent Order of Good Templars cannot over-estimate the value of water nor sing ils praises too high to suit Fresno people. though occasionally some of them may have a mental reservation in regard to the use it should be put to.

STARTLING PREDICTIONS.

Canada again sleps to the front with a reather prophet, and with one this time efore which the prophets of that and all other climes pale into miscrable in significance. He says as much himself His name is plain Johnson, but his man ing are not so modest as his name. In

ners are not so modest as his name. In a public lecture he says:

"You have in your American weather bureau men who claim to he very wise. They are often misted. Why? Simply because they have not bestowed scientific study on any spots. They should all be removed to make room for one practical expect like myself. What can it he world to a man who, like myself, has traced out the serial course of climnic changes, followed up the hunder to its lair, and discovered the real hiding place of the chained up winds? * * I say it without fear of contradiction, and in the modesty of conscious ruth, that I am, beyond all doubt, better versed in these subjects than any other hundes being."

Mr. Johnson evidently has a full hand

Mr. Johnson evidently has a full hand on aun spois or is making a bluff that is calculated to cause all other weather with trembling interest, for he has al-ready promised residents of North Amer-ica that in 1890 whirlwinds will devastate large sections of their beloved country and that volcances will stort up in un expected places and pour forth hoiter expected places and pour total factor stuff than an Amelia Rives romance. But the worst of it is that the earth is to suffer these lerrors for a period of twenty soft years before the spheres tumble ogether and the end comes. Protty ough.

A VALUABLE CHESTNUT.

The face of the earth looks as pretty and smiling as a schoolma'am since that little downpour of Monday, and the sir is as fresh and pure as a breath from the pine-clad mountain tops. In no other olace under heaven's canopy can such dalights of climate ha experienced as are found in these balmy but invigorating days of fall and early winter in California, after the first showers have suband the dust of summer and refreshed egetation. It is alone in this winterless land that the approaching season brings with it no terrors. In the East the Frost Kirig has already laid his withering touches upon leaf and flower, and snow is flying in the chilly air.

We should not loget to be thankful

that we enjoy the gracious privilege of living in California. The climate not only makes existence a delight, but it makes it casy to acquire the material comforts and luxuries which emblish life and make it indeed worth living.

POLITICAL PROBABILITIES. The admission of four new states, to gether with the coming census, upon which a new apportionment will be based, upsets all estimates of the relative

strength of the two great political par-ties in 1892 as compared with 1888. Last year the Democratic party carried the eleven couthern states, representing 153 electoral votes, together with Indiana, New Jersey and Connecticut, giving them a total of 183. The Republicans carried the New England States, New York, all the great Western and Pacific York, all the great Victoria 21s electoral votes. The admission of the two Dakotas, Montana and Washington adds twelve electoral votes, which number will probably be increased to sixteen when the census is taken. Little increase in population has occurred eithe in the Republican states of New Eng-land or the Hemocratte states of the South, with the exception of Texas. New York, Pennsylvania, Oldo, Illinois, Minnesota, Nebraska, Colorado, Kansas, Missouri and Catifornia may all be depended upon to show up with largely increased population, and to this fact Republicans look confidently to see it placed beyond the power of the Demoorats to win another Presidential contest, with the Southern States in a lump to-gether, with New York, Indiana, New Jersey, Connecticut and even Montane work. If the report proves true and Gould gains his point, a lively rattling among the dry railroad bones on this coast may be confidently expected. In that event the road would be completed to San Francisco with the road would be completed to Sa delay and the Southern Pacific would have a rival worthy of its steel. Gould they are all omitted from the Republican common policy and grinder of the highstates policd i82 electural votes last year, and the census returns will probably add forty-four to this number, with fair prosperts of fifty-two. Taking the lesser number with 182, the surely Republic states of 1892 will cast 22d, while the surely Democratic states will not be able to muster more than 140, leaving New York, New Jersey, Indiana, Connecticut, Virginia, Montana and West Virginia, probably, with ninety-two votes or up-wards in the doubtful column. Of course these figures are more or less guess work at present, but we believe that they will prove to be not far out of the way when the new apportionment shall have been

S1000 PER ACRE. Thrown the continued efforts of The Remarkers Freezo is at last promised flow about Freezo on the basis of what they will produce. Thomas Creighton has just paid an even thousand delines a acre for forty-three acres of raisin vineyard. As he is an old resident of this railey and is thoroughly acquainted with this industry, his purchase is of more than passing interest and impurhance. That seems like a big price to pay for agricultural land of far. The Kern County Echo makes the folmore than passing interest and importance. That seems like a big price to pay for agricultural land out west this far. But as it will yield him a net income of from \$100 to \$850 per core each year we do not know where he would find a legitimate investment that would find a legitimate investment that would as living, with steady employment, and pay him better interest. But how do we know that it will yield such an income? Because vinoyard after vinoyard—scores of them—have done that very thing year after year. For the rich, a bearing vincyard is the thing to buy. For the poor man, the maked land is better. If he is quite poor—has only money enough to make the first payment on his land and get his house, team, cow, etc.--he can raise his vines from grape cuttings which will cost him about \$3 per 100 or \$15 lnr rooted vinen. About 435 vines are re-quired for an acre. Until these begin to

family. It might be added that land selling for frum \$75 to \$150 per acre. No section of this great commonwealth offers better inducements to homeseekers of moder-

bear some substantial parts of the

ate means. A SHUNING EXAMPLE.

The city of Portland furnishes pointer for Fresno. Being a progressive, wide-awake city, it owns its own water works and is making money at the business of supplying its citizens with water.

Last year its water business notted \$39, 000 clean cash, and up to date this year the city is \$60,000 ahead on its investment, and this, too, after paying \$5000 additional interest on bonds.

Surely this is an example worthy of consideration. In San Prancisco, on the other hand, we have the example of B city which depends for its water supply upon a private corporation. The Water situation there is well known. tos ara exarbitantly high, and a bitte: and expensive fight is continually going on between the city and the corporation.

Freeno can well afford to learn wisdom from the experience of other cities.

New dried Lima beans from the Pa cific Coast are now in the market. It is only since California made a specialty of this desirable winter product that about dant quantities have been obtainable.— New York Tribune.

California can not only supply the East with all kinds of choice fruits, I where her resources of soil are properly developed and transportation facilitie are equal to the requirements, can for nish a supply of choice vegetables du ing the winter months. Vegetable gar dening is destined to become one of California's great industries.

New York papers say that Tammany offered Ex-President Cleveland the can didacy from the Ninth District to succeed S. S. Cox, but Cleveland declined to be an aspirant. The party has but for men for the place who are the equals ability of the late encumbent. Mr. Cleveland is not one of them,

The Australian system of voting will never become popular in the South. It was tried at Chattanonga, Tennesse tast week, the result being the election of a Republican Mayor and ten out of sixteen Councilmen.

ONLY about 50,000 Americans atte

THE United States will soon send a flect of new naral vessels to Europe. The fleet will include the Chicago, Bos-ton, Atlanta and Yorktown, all new vessels of our own construction, armament and equipment, and three-fourths of the born Americans. The Baltimore may be added to the number yet.

promise that all the nations of the earth will in return become consumers of American products, may very profitably consider the possibilities of that promise being made good. The fact is, the marbe added to the number yet.

The Prozno Board of Trade should be something drop on its committee for making arrangements for the State Print directovers? Convention to meet in a building which has been condemned assuments. It may be a smooth play to get rid of ecceveralmented good men, rival fruit growers from other sections, but it may also involve the lives of several good. Fresno people, who may thoughtlessly wander into the condemned structure. Who is responsible for this blunder, anyhow?

Table grapes sometimes sell for fancy. kets so lavishly promised are now quit-

responsible in the addition, and the responsible in Table grape's sometimes self for fancy prices in New York and other great cities of the Fast, particularly if the fruit is sattractively packed. Tokay, Emperor, Black Morocco, Muscal and other well-known varieties find ready sale this well-known varieties and treat sac and season at remainerative prices, while at times the sales reach surprising figures. A cardead of choire truth sold last week for \$2406, the Tokaya bringing \$200 per ton. Such sales should stimulate over-

A cartead of choice truit sold tast week for \$2405, the Tokaya bringing \$250 per land, Such sales almold stimulate overland railroads to engage in the California fruit shipping husiness.

The West Side road is being extended southward from Newman, and it completed some distance below Central Point, near the line between Merced and Proposition of the California freem counties. This road comes to a point within about twelve miles west of this city, thence bearing southward and not of fudustry must be compelled to converge the receives including the mile one of living must cone, if if roomes at all, by receive, but some almost and point within about twelve miles west of this city, thence bearing southward and not of fudustry must be compelled to converge the receives head to diverge the tree true for each such as their points procure that their points over land th crossing Kings river near Kingston. A branch will connect with the East Side the making Fresno the junction town. The Southern Pacific is gradually covering up all the desirable opproaches to Fresno likely to offer encouragement to rival line. Its managers are long

THE City Council wisely decided that the Chy contact actionable shows out of Fresno than to control them when once beensed. The Republican congratulates all good citizens of our town upor the action of the Conneil last night, for Frean will continue to prosper and bery young men and boys will be repared the contaminating influence of a variety dive, with "heavily (curtained boxes wherein gentlemen may entertain the ladies who perform on the stage, all private, you know." We also extend our symmathies to those who desired the he action of the Council last night, for sympathies to those who presence of the "ladies," but found themselves in a hopeless minority.

Macn of the cament being used in Fresno is not as good as the lime made from Squaw Valley limestone. Builders from Squaw Valley limestone. Builders are being imposed upon by earcless or designing contractors, and there is, apparently, no remedy. One of the most important contracts now going on where cement is used is the sewerage job, and another is the paving of certain streets with bituminous rock, with granite block gutters ladd in and covered with cement. These are both jobs of the first importance to Fresno. They are costing thousands of dollars, and the maderials consumer. sands of dollars, and the materials con tracted for are the very best. It is some ground may be entireated to vegetable crops that will more than make a living for the young vineyerdist and bis and used in proper quantities, too.

As a general thing ministers of th It might be added that land selling for \$1,000 per acre is finely located near the goopel are not first-rate "restlers" in goopel are not first-rate "restlers" in such y and is producing full crops. Equally good land, numproved and more dislant from market, can be had for more dislant from market, can be had for the Rev. Mr. Morrison of Portland markets with the Rev. Mr. Morrison of Portland market the Rev. ar. animon or conditions of the ried two couples before an audience of 10,000 people at the annual exposition, and sent the association a bill for \$50. In justification of the price asked for his services, he said: "You may think my bill extravagant, but you cannot expect a minister of God to make a holy show of himself for nothing." We should say not. The preacher who exhibits at a fair is entitled to his pay just the same as the brass band is entitled to its hire or the prize pumpkin to its premium.

and pure water straight should be served, where prisoners are simply doing time. Our county jails are conducted too nearly upon the plan of cheap hotels, where the best food is served at minimum prices. If the Supervisors of Fresno county will take the initiative in this malter other counts will take The mines of northern Fresne county are surely coming to the front, and soon the annual production of gold will equal in value that of any other product of our county. Mount Raymond and the Minaret districts will vield silver in largo quantities in the near inture, but the North Fork and other districts will pro duce more than enough gold to make the vield of vellow metal overbalance that o the white Among the best known and most promising claims of the gold bear-ing quartz north of the San Joaquin river in this county is the Mountain View mine, owned by several gentlemen of this city. The work of developing and working the mine on a limited scale has been pushed forward continually for some months past under the direction of P. B. Donahoo, part owner in the property. Shafts were sunk and drifts ruo on one partion of the clalm with flatler ing results, and the property—came ne being said for \$100,000. Recently world was commenced on another part of the laim, which is 2000 feet in length and 600 feet in width. A crossent of twenty feet was made, and a winze sunk a depth of twenty feet, on a very fine ledge of total year, or a set of cold-of gold-bearing quartz. This ledge is from eighteen to thirty-six inches in thickness and carries much free gold and rich sulphurets, and the new discover-

addican Lientenaut-Governor in the

olds very numerially to the value of the An effort will probably be made company of some of its most brainy now to put up a large mill for working and hard-working men. he ore from the mines on the claim. THE Granter artistic begins.

THE TROWNEN BANY BOY.

Judge Garber's eyes wandered from the trarsstance fine of the stricken mother to the stern-featured Ara. Hull, who sat on the opposite side of the Courierous with the crowing twelve-months bathe in her arms. Her fare gare ample evidence of the doubts which filled his mind, and it was no marprise when he said: "I cannot decide this matter to-day. As between the mother and the foster-mother, all other things being equal, the former artistic has the bedforeright to the child, but to determine that I must have time for investigation." Then the weeping muther was led from the Courtroom by her autorney, her slender form fairly tentbling with a suppressed grief that burst forth in a torrest of tears as she cast one last lingering look in the face of her child.—S. F. Chronicle, October 12, 1889.

A NOVEL IDEA.

Gutter in the Middle of the Street and Nowhere Else.

Entrok Republican: The present way of making streets I think is wrong, from the fact they are made high in the middle, running all the dirt and fifth to

company with a capital fixed at \$60,000, with which they propose to establish a school of practical training for young ladies who are willing to learn to do cooking in a manner that will be alike healthful and profitable to their employers, and how to do general housework in a thorough and at-

real independent of the process of the control of t

middle, running all the dirt and fifth to the edge of the sidowalks, where teams are biched, splashing the mud and slush on the people passing by and on the walks and ironis of buildings.

Many suggest to grade the street up to rearly so to the top of the curbstone, gently slope it to the tenter, where there should be a sewer to receive and run off the dirt.

It would also save making two gutters of paring blocks, which is quite an item when you come to consider the cost of blocks, work, chr.

This could all be saved and make a better street. It would also save your cellars from being filled with water from the saves and awnings.

The water would run immediately to the sower in the center of the street and be carried off. As the city is gring to a large expense, I would suggest to try one block on this plan and see if it is not better than the old way of forming a mud hole in front of your door. with the estimated in the argument where, upon application and proper references, a cook or housekeeper may be obtained with a contractee that she is competent to do the work required in a satisfactory manner. Other training schools of this kind will be founded if the first one proves a success.

The tramp nuisance continues to swell

MINERAL LANDS.

An Opinion That Will Interest Many

The state Supreme Court recently ren-

The state Supreme Court recently rendered an opinion that will be interesting to ectilers on government lands. It is the case of Richards and others against Dower and others. The Court hold:

That an ossential cleanent of a gold mine is that there should be a natural deposit of rock or earth containing sufficient quantity of gold to admit of profitable working.

That even though lands are known to contain precious metals, if they are in quantities too small to justify an attempt to extract them, they are not properly called mineral lands.

That a mine is not reserved in grants made under United States patent laws, unless it is not only known, but known to be valuable at the date of the patent or discovered to be so before the occupation or improvement of the lots containing them for residences or business under the town-site law.

That it does not follow from the fact that it must be deemed to have continued valuable.

AN ERROR IN BUSINESS.

It Causes a Local Firm the Loss of a Suit. The suit of Joseph E. Shain, assignee

a not trappled with a lot the claim of A. B. Patric beam. Nevada City, the county seat of that research the relebrated mining county of that anne, is said to be so quiet that flocks of the relebrated mining county of that the relebrated mining county of that the relebrated mining county of the release of the rel Arthur Tombs, a former harness-maker of Fresno, was decided yesterday in favor of the defendant by Justice Hebbard!

The defendant's store at Fresno was burner on June 19th, and he came to this city and motified his creditors that he would abundon his business. Subsequently his son, Arthur C. Tombs, began business at the same place, and onlered goods from Patrick & Co., who, under the impression that their former creditor had resumed business, charged him for the goods. Young Tombs failed, and thereupon the elder Tombe was sued for the amount of the plaintiff's bill.

The Court held that as the plaintiff tim land carelessly charged the defendant for goods delivered to another person, they could not recover.—S. F. Chronicle.

WELL DONE.

This is What Gives The Republican the Largest Circulation.

Entron Republican: In yesterday's sene of your right-defending paper, I An indication of coming opposition to saw in bold type, an account of one of the Southern Pacific Company in Catifornia is found in the desertion of that was the suppression of the trap for young men to be conducted by Jack Hallinan. I would like to and here take the oppor tunity of thanking the City Council for doing such a grand and noble work.
Gity Fathers: On Monday night, October 4, 1889, you did something for Franco, that time in its fast fleeding course can never wear away, and these of our homes and firesides in this releastial beaven of ours, can never forget, Your wise forethought guided you in such a manner that you have kept out of tunity of thanking the City Council for to own the earth unless he doubles his

our town, a destructive element to

In front of the rigar stores, telegraph offices and other places where the Lauisiana tiger sported with treatherous claws, crowds of men were gathered copying the winning nambers of the Louisiana drawing yesterday. More interest was displayed in these bulletins than is usually observed in a meeting of the City Council. The lucky numbers, as received thus far, are as follow:

No. 63,856,8500,000.
No. 91,954,825,000.
No. 91,954,825,000.
Nos. 82,827,19,233,46,728,85000.
Nos. 44,925, 26,115, 60,003,57,403,25,519, 60,074, 18,972, 30,720, 11,420,17,988, 21,150, 32,920, 67,347, 60,440,41,935, 1562,98,170, 23,634, 62,904, 1289,42,053, 81030 cach.

REPORTED WINNERS IL was reported late last night that J. W. Dedson, the expressman, had won \$30,000 on a double coupon, but Mr. Dodson at 6 r. s. was not aware of that fact, as he had left his coupons at home. Ed Nason, tha lacky farmer south of Watshington colony who drow \$15,000 two months ago, informed several of his recursion of the recursion of the streets last evening that he had just drawn \$5000. After anomening this bit of news he immediately left in his langer for his home.

W. C. T. U.

The Fresno County Women's Christian Temperance Union will hold its fifth county convention at Selma this week. On Thursday evening a reception will be given to the delegates in the Baptist Church. The Selma maion extends through me an invitation to all the members of the union, their husbands and group children to attend this reception. This union will be represented by nine ladies. No expense or pains will be sparced to make this the best convention ever held by the Women's Christian Temperance Union in this county. State President Mrs. Johnston will be in attendance, Many valuable papers will be read, and it is not pessible to tell the quantity of business these busy women will transact. The Fresno County Women's Christian

ie quantity of consideration will transact.

Mas Viola Mirchell,

Sceretary W. C. T. U.

"A Brass Monkey."

"A Brass Munkey."

The reception given Charley Hoyt's latest comedy, "A Brass Monkey," at the Bijon Theater last evening, leaves no room for doubt as to its success here. The theater was packed to the doors and every feature of the play was applauded cultusinstically.

The distinctive hit of the piece is the "Razzle-fazzle" ditty, sung by Dodge Work and two typical toughe. Messration of the piece is the superior of the piece in the superior of the piece in the superior of the piece in the superior of Jonata, did some clever of ing and dameing. There is plently good music and good business in lirass Monkey," and those who like y lloyt's style of plays will find my pleasure in it.—The Fress, New York. This attraction will be produced at Riggs Theater next Sunday might.

Mr. Maxey Complimented.

Mr. Maxey Complimented.

B. M. Maxey, who had charge of the Fresno exhibit, deserves much credit for his untiring efforts in collecting and arranging such a splendid display of products. The rear right-hand alcove at the new railroad depot was beautifully decorated with growing palms, pumpas grass, grains in sheaf, etc., which greated the visitor trom a distance. As one entered the hortical fairlyland, tall pyramids of sparting with grain and beyond the wall was wainscoted with cases of dried mills, arranged in the most attaction manner.—Putific Rural Press. B. M. Maxey, who had charge of the

Solomon's Failure.

The house was crowded last night to The house was crowded last night to hear of "The Success and Failure of Solomon," by Professor Coombs, after a preliminary siddress by Rev. L. N. Early, at the Christian Church. The deepost attention is paid by the large audiences who eagerly listen to the earnest and impressive speaker, who is conducting these revival services. Meeting at 7 o'clock; preaching at 7:5th every night.

Solomon uncoubtedly made a success as a sage, but in the rule of a man who had married not wisely, but too well, he was a henpecked failure.

Howard J. Fowler, a farmer near Selma, has filed his petition in insol-vency with the County Clerk. His lia-bilities are \$1052.50; assets nothing.

Hood's Sarsaparilla

Is a peculiar medicine. It is carefully pro-pared from Sarsaparilla, Dandelion, Man-drack, Dock, Prpissewa, Juniper Berries, and other well-known and valuable vegetable remedies, by a peculiar combination, propor-tion and process, giving to Hood's Sarsapa-rilla curative power unis passessed by order medicines. It effects remarkable cures where other measurations fail.

other preparations fail. Hood's Sarsaparilla

Is the best blood partifier before the public, Iterallicates every impurity, and cures Serofula, Salt Biteum, Boils, Pimples, all Humory medyspepsia, Billiousness, Sick Head-du of sald ligeation, Goneral Debility, Catamatism, Kidney and Liver Complaints, overcomen that tired feeling, creates an appetite and builds up the system.

Hood's Sarsaparilla

Has met peculiar and unparalled success at home. Such has become its popularity is Lewell, Mass, where it is made, that whole neighborhoods are laking it at the same time. Lowell druggists sell more of Hood's Sarsaparilla than of all other sarsaparillas or blood purifiers. Hood's Sarsaparilla

Bold by Druggists, \$1; six for \$5. Prepared anly by C. I. HOOD & CO., Apotheoaries. Lowell, Mass.

100 Doses One Polist.

The ordinance reducing the license on theatrical shows where tipnor is sold from \$50 a day to \$153 a year will come before the Board of Trustees for final

porter: "Jack Halliam told the Trustees that Freein was the only city of its size on the coast that is without a variety show. That was the best argument that he could have made against his own interests, for it is to the credit of Freein that it can be said that there is not an establishment of that kind to town. It is a good beom arament, and such planes should be kept out of here. "I admired Jack's trankm as in telling us that the boxes in the galleries where the halles' of the show would go to be entertained by their gentlemen friends, would be heavily actained and setable from the public gaze. I shall not vote for the ordinance as it now stands. It he is to be allowed to open a place of that kind he should by a much leavier license. Such a place would be a had thing for the town.

BOUGUEST FROM MALRIED MAN.

therise. Sheh a piace what is a same thing for the twen.

"I remember when the dielphi variety show was running in this city a few years ago how it broke up more than one inmite on arrount of the infatuation of married men for the level women who composed the troupe. Some men became so shameless that they had their wives pirk them big bonquets on Sunday mornings, and these men used to walk down Maripasa street of a Sunday foremon rarrying the bonquets of the reduce of the troupe, who had so agreeably diverted them on the night before. It was one of those places where they sell state 10-cent beer in the boxes at a dollar a bottle to breat the badies' of the slow.

dollar a bottle to treat the basics of the show.

"I have heard that the Cremorne in San Francisco is conducted on the samplan. The point that it will cone Italiana \$5000 at month to ran the place is not such a good one after all, because the monoy will have to come out of the pockets of the Freeno people. Besides that these variety people are coming and soing all the time and they will take more money out of he town than they will beave in it."

SALOON MEN AGAINST IF, 11 is understood also that the retail inport denier of this city are opposed to the establishment here of Italinan's groupstum of histrioule art and beer, for they believe that Jack will take the bulk of their trade, away. Unmarried men and others who are now in the hubit of spending an hour or two in the evenings and who play cards and slat in the woll-lighted and comfortable salome, will be attracted by the singing and duncing of the loves women in Hallinan's proposed dive, and will adsert the salones.

proposed dive, and will desert the sajourn.

The following has been received on
this subject iron a respectable citizen:

Eprim Errumetax: I see in your
paper that the 10m Hallman, who owns
the Cramerus, one of the retorious
variety dives of San Francisco is again
before the Board of Trusters trying to
fasten immeelf and his abanimable shew
upon the good prople of this city. The
Cremerus is similar in all its features to
the Adelphi, which so recently blackened
the fair name of our beautiful young
city.

city.

MEDIAMONDED SIN.

This man tells the Board by way of argument that he will pay out ahout \$2000 per mouth to his "people," all of which will be spent amongst the good mende of Presno. But strangely emough he ineget to tell them that he expects to draw this \$2000 out of the hard-carned wages of their sons, your sons, my sons, the sons of mercha its, farmers and mechanics, in orner that he and his creamar llaunt their gaudy apparel and methans, our wives and our daughters. No, gentlemen of the Deard of Trustees, if you have any regard for the mothers and fathers of this city and county; if you are willing to be guided in your action by innertenths of the tax-payers; if you have any respect for the wishes of those who placed you in office, then, for Heaven's sake, don't bring your our neighbors under the blighting influence of such accuraced institutions as the Adelphi or Grenorm at San Francisco.

If you wish to encourage Eastern immigration and add in the material development of our beautiful country, for coal's sake, don't self the moral character of the rising generation for the pittin sum of \$1500 per annum.

John D. Fishe was arrested again vession of the salundla of the public public pairs are steed again.

of Presno is looming.

John D. Fiske was arrested again yesterday, this time for not complying with a promise made to Recorder Prime that he would put in a tireprosi wall, as required by ordinance, at the reat of his building on sould I street. The date of bis trial is not yet set.

HOKEY-POKEY.

Justice Wolcott Beeldes That It Is a Percentage Game. "What is a signight?" asked District

Attorney Tupper, peering over his glasses at L. H. Owen in Jastice Wolcott's Court yesterday.

James Robinson, a hokey-pokey
dealer, bagged in the Elite saloon on
september 50th, was on preliminary ex-

september 30th, was on preliminary examination.

"A straight," responded Mr. Owen with a smile at the simplicity of the question, "is a sequence of cards, thus: acc, device, three, four or ten, Jack, Orcen and king."

"How is hokey-pokey played, and state the difference between it and studylards poker?" asked Mr. Tucker.

The witness explained that bokey-pokey was played with four cards, one of which was turned face down, whereas in slud poker five cards were used in the sume way. In these-poker, game conducted in his schoon the cards were dealt to the players by one man, and this man book "two clips" and of the pot at each deal. This money went to the house to pay for the lights, and the cards, the eigers and drinks that might be ordered by the players. eards, the eigars and arm be ordered by the players.

concred by the players.

WHERE THE PERCENTAGE COMES IN.

"Suppose," asked Mr. Tupper, "after be players quit the game there is any of his money left in the table drawer or in he hands of the dealer, is it returned to be players."

the bands of the dealer, is it returned to be players?"

"No, sir; it goes to like house."
The defense was represented by Attorney Goucher, who argued that hokey-poker was no more a percentage game than was draw poker, where the players set outside certain san out of the policipal participation of the business of the bar and as an entirement to gain enstoners for the wines, whisky, heer and eights sold there.
The Court decided that holsey-pokey was a percentage game, prohibited by the statute, and the deiendant was held to answer with bonds fixed at 4500.

Sunset Irrigation District Carried.

The election of the Sunset Irrigation District was held Monday. The vote

First District -- For, 19; none against Second District - For, 12; none against. Third District—For, 22; none against. Fourth District—No vote was cast, because no voting place had been provided. Fifth District—For, 21; against.

vided. Fitth Datance—vor, 26.

Total vote—For the proposition, 74: against, 20; seven more than the mecessory two-thirds unjority.

This is in good news, and when the canals are in working order that country will develop eren inster than this side of the valley. We think the West Siders did wisely in voting for the district—selma Irrigator.

Native Daughters' Installation

Cyrus Clifton's Desperate Attempt to Murder.

BECAUSE SHE HAD LEFT HIM

A Thrilling Scene at a Rauch Hous Three Miles From the Town of Selma.

From Deliy of Saturday. Cyrus Clifton was brought from Selma

his two children, and tears rolled down his cheeks.

It said he couldn't see how his wie could treat him with such little consideration, after he had done so much for her: had even married her under chrumstanec's when most men would loave shunned her, and all because he loved every bone in her body, and because he did not wish to see her sink into the depths of degradation on account of her having been persuaded to go wrong when he was young and undeelded in mind. "We could not have been happier, he continued, notif a few short weeks ago, when my wife's too willing ears began listening to the appeals of Win. Lockaby. SHE BECAME RESILESS.

my wife's too willing ears began listening to the appeals of War. Lockshy.

SHE DECAM RESILES.

"Then trouble began. My wife became restless, irritable and almost unbearable, and said she wanted to go away and visit her nother, Jus; Sterrett, near Schm. We were then living in Seattle, Washington. I sold the household farniture and with what nonny i could scrape up I gave to her, and when also started to leave she kissed me good-live and told me to write to her, and when I wished she would come, no matter where.

"Things ran along smoothly until a week later, when I learned that William Lockshy had followed my wife and was on the same boat with her.

"My anger at once became a frenzy, and the next week I was on my way to California. I had bought a revolver for the express purpose of killing the man who allenated my wife's allections, and had I canght sight of him, let me tell you, I would have made short work of it. Arriving in Selma, eight days ago. It called on my wife, and thereafter made frequent vieits until yesterday, when I rode up on horseback.

"My wife was out in the dooryard holding a piece of watermelon in her hands.

"I got off my horse and a moment later had my arm around her waist enterating her to forsake her folly and return to use. She stepped inside her bed from and I followed. White trying to persuade her lo do right and while gesticulating with my hands, my pistod dropped through a hole in my pants pocket and idown on to the floor.

"My wife became seared at the sight of the pisted and near need to heads coming inside I ran out tirough another door toward a harn, where I was overpowered and kieled in the face by Mrs. Sterreit, I was subsequently arristed for neasulating my wife with a deadly weapon, by seen hart was when her nother and relatives pushed the door open and sgathst her later. "Cooss at yours."

"Yan have often been cross toward your wife and may possibly have struck or and my passibly have struck."

"You have often been cross toward your wife and may possibly have struck her when angry, have you not?" was asked.
"O! of course 1 have been cross at times and have upbratded her, but I never laid hands on her to injure her," was the reply.

Mrs. Clifton's Statement After her husband's arrest Mrs. Clifton

After herbuseands arrest Mrs. Cition came to this city with her children, and was interviewed last night by a Repunsional reporter at the residence of her sister, Mrs. Saffell.

Mrs. Clifton had her forehead bound up in a cloth. There was a cut on the history of the mass about helf an include of the mass about the mass and the mass and the mass about the mass and the mass an mus. Cincon and ner forehead bound up in a cloth. There was a cut on the bridge of her nose about half an inch long, her left eye was blackened but not swollen, and there was a slight swelling with very much tenderness over the right eyebrow. No powder marks were visible on her fare.

Shu is a rather more season to here.

take the children away from me.

"On the same day, before dinner, he came is and told one that he would give mind what to do, and he told my consist that he would give me consist that he would give me until Sunday, and no longer, to decide. He was perfectly sober at the time.

Solver at the time.

A HOME PREFACED.

"At about 5 o'clock yesterslay aftermon I was not feeling very well, and
was lying on the bed in the bedroomwhen my husband came in and sut
down and began talking to me. He told
me that he had retted a place from Mr.
Lemons, and he said, 'Lemons is an old
riend of nine, and he will help me to
do anything I want. We can have the
lace either by buying it or renting it.
Will you live there with me?

"I fold him that I would not, and he
said, 'There is this mutch about it. We
have got to die together. I will kill
you.'

turned from San Flanches block.

Mrs. Jesse breine, who has been enjoying the coast air at San brances of several months peat, returned hame lated by the peating of the lated several months peat to the County Jail yesterday afternoon for attenuing to mander his wife at that place.

It was alleged that he assamited his given his palet in a coll of live with him any longer.

A reporter interviewed Clifton at the second floor, grouning the stringel to the door and said, "Ill will be an about the peating a peat from a companion in the Clifton string."

A special train of twenty-those cars based with raisins, but Presuo hasty of the Atlantic & Pacific and Santa Faniorable.

George Mathews, arrested a lew days ago as stealing a rest from a companion in the United States botel, pleaded guilty before Jartice Houge vetwerials and the Clifton is nearly full years old, about the United States botel, pleaded guilty before Jartice Houge vetwerials and the lates of the lates

shooting.

"When I looked again I saw my cousin holding Clifton around the waist, and Clifton stabbed him twice in the leg with n pocket knile. Then they felt to the ground and were sentiling there, and I heard my cousin hollering, "Take him laway; he is killing me."
"I forget to state that after I rushed out of the door I run towards the well for some water, for I felt that I was going to laint, and my little boy says that my huband first and my little boy says that my huband is and my little boy says that my huband is the most of the time during the scuffle, and my husband licked him several times to get time out of the way, and the little fellow has been still and zure ever since. "There were a great many shots fired, and it's wonderful that nobody got killed. When Clifton lired at my uncle he placed the barrel of the revolver across his left wrist to take a steadier aim, and it was due to the boy and my cousin, who were indiding him, that his nim was disarranged.

"After they got my husband down on the ground, they took his revolver away and tied him with ropes and kept him that way null the officers came and arrested him, "I have been told that after I left Seat tle, Clitton want to the Relief Committee and told them that I had gone insame, and that he had been sent for to take care of me, and they gave him money to go after me.

care of me, and they gave him money to go after me.
"My life will not be safe if Clifton is turned loose again. He is a changerous, desperate man. He served fourteen years in the San Quentin penitentiary for killing a man in Mariposa. He has been in several shooting scrapes himself, and has bulke wounds in his mouth, on his broast and on his arm.
"He has threatened that when he gels out of this trouble he will kill me and my uncle, the officers and everybody else that had anything to do with his arrest."

Mr. and Mrs. Bailey Kay Leach Intend

Mr. and Mrs. Bailey Kay Leach are Mr. and Mrs. Bailey Kay Leach are having plane prepared for the erection of six cottage residences on their lots on .1 street, between Stanishaus and Calaveras streets. Each house will contain six rooms, will be hard finished and of the latest style of architecture. The work is experted to be commenced within a week or two.

or two.

Mr. Leach told a reporter yesterday that it was the original attention to improve the yearn tolds at the rear of the Garbaldi back on K street, but as the building contemplated was large and would take until late in the winter to finish, it was concluded best to wait until year year, in the uncurrently next spring, in the uncantinus the cottages could be finished without maning any years financing in the contemplate of the property of the contemplate of the property of the property of the contemplate of the property of the prop

pose to erect on K street. assessing the porter.

"The building will be of brick, 150 feet square, three stories high—a nobby, model structure, having a gaudy failed on top that will make all other buildings inside the city limits turn green with

houlders may be more community, well as consistent.

If the Expositor has any positive condiction in such matters, thus far it is a case of "Now you don't see it."

CITIZEX.

CITIZEN. PUBLIC OPINION.

FINITOR REPUBLICANT: Every good citizen, and especially every father and mother, will await with deep concern the action of the City Truetees upon the pertion of Jack Hallians to be permitted.

the would-be proprietor himself before the Board.

It is a satisfaction that some of the Board, at least, appreciate the claracter of this menace to the morals and good name of our city, and that they will vote games it. And we confidently hope that the whole Board will recognize the thinly concaled dimensions of the edit, and refuse to remove the barriers to its introduction into our city. It public demonstration of the overhelming preponderance of epinion against it is needful to prove to the Board that they will be sustained in depriving the city of the paltry inconer promised in eash, for the sake of the safety of our yamth, such demonstration can be made, and in a way to show that we are not ready to bottor the virtue and good name of the city for any consideration of commercial advantage, even though teached that which Mr. Halliam seeks to prove to the Board would accrue.

A DISTANT VIEW.

Young people are sure that amuse-ments of some kind they must have. Only higots, we are told, deny to the

Religious people are thought to be a morose and unkind. I will not stop to argue this point; but, in relation to anusements, I presume all will agree with me, that they are not to constitute the great purpose of life. They are right and of use only when employed to unbend the mind, and, by relaxation, fit people for the higher and better perments should always be ment should always be not the always alway and of use only when comployed to un-bend the unind, and, by relaxation, lit people for the higher and better per-formance of the duties of life. Anusse-ments should always be the experience, not, the great business of existence, Duty should be preferred to pleasure.

Time-ladex.

W. A. Cowan yesterday sold some choice dried peaches in this market at 25 cents per point. There's lug money in ordinary dried peaches at one-half thut new depots for the storage of performance, It pays to ratise the best and put there no the market in the best possible shape.

To the minds of many dancing is open to serious objections. They claim it to be the fruitful cause of exposite and groundure death; that it often bernies the morals by the promiserous association of all classes and characters; that it allows a familiarity which, in any other recreation, would be regarded as graded as fixed and rejected as an insult; that the style of dress, both in fashion and material, is frequently such that the lady who would appear on the promeunde or in the partors or arrayed, avoid holes for reputation for modesty, if not virtue.

LUCTION SEA.

The modesty, if not virtue.

LACCITICES MONERAGES.

I do not regree with those who promotines a wholesafe denunciation upon dancing; who declare that dissipation is the magnestionable chann of the dance, without which the exposure, the total, the carbon tributions which the exposure, the total, the carbon tribution is the modest and hour, but I am unable to understand hour, but I am unable to different and hours, but I am unable to different and hours, but I am unable to understand hour the polke, or the facely condemned.

FISKE'S BLACK EYE.

lobnuy D.'s Typewriter Discharge Because He Would Not Wilk

From the Polty of Tuesdas.

John D. Ficke, of Fiske's Opera House, is in another kettle of hot water.

He was arrested at his residence hast might for hattering his Private Secretary. If Mr. Fiske is gainty of this offense he has cammitted a very rare crime. One would have to delve very deeply into history to find another instance of a great man assaulting his Private Secretary, atthough there are many cases extant of nigh there are many cases extant of

whose every prospect pleases and whose cheap, new red wine alone is vite.

Two weeks ago Mr. Solomens entered the employ of the Fiske as stenographer, private servetury and typewriter. It was stimulated that he should be paid a certain sum per month, the princely sality to be still further increased as time wore on.

The Fiske has a cow, a mileh cow, and a darned good bovine all around. Shows gentle and kind, never kinking over the bucket or sitting in the Jap of the millsmail at an inopportune moment. Shortly after Mr. Solomons' advent the milkmail at an inopportune moment. Shortly after Mr. Solomons' advent the milkmail at an inopportune moment. Shortly after Mr. Solomons' advent the milkmail of the paid with lacted find failed to descend in sufficient quantity, and a gentleman employe of the great lifegant pulled vainly at the bovinc teats.

All Solomons in an inoparable moment volunteered the information that he know how to extract milk from, an invitiling udder, and the Fiske requested into to show his skill. The young manhal to make good life loast and he filled the paid with the speed and desterily of a dairyman.

ne paramin.
Ithe Private Secretary did not relish a
task so far beneath the dignity of his po-eition. Iongine Private Secretary Boruck
milking Assistant-Governor Waterman'

THE DISPUTE.

idities of his exalted position. Piske thereupon dischayed him.

THE DISPOTE.

Solomous finished some work which he had in hand, but which also was not in the line of his employment, and returned with Piske to Fiske's residence on M street to settle their financiar, and the result of the history of the month of salary due, and the Secretary said that he would bear what was coming to him if it took a lifetime.

On other items with respect to money advanced to the Secretary by his employer, Fiske said that solomous a balance of 2 cents, and that Solomous beathere of 2 cents, and that Solomous wed him 35 cents. Solomons asked him if that did not leave a busines of 25 cents is Solomons asked him if that did not leave a busines of 25 cents is Solomons from the would not owe lithe that if he had reckoned what was deen his Secretary necording to the days of the mouth he would not owe lithe twen the 2 cents. He then ordered Solomons to leave the house instantly, and added that he didn't wish to have anything more to do with him:

FIEKE TILLS HIN TO SHOT VE.

Mr. Solomons was interviewed by a Regurancian reporter, to whom he said:

"I demanded an invadinte settlement, and Fiske said: Didn't I tell you to shut up? I don't want to lear mything more from you." I replied that I was making a just demand, and that I didn't propose to be shut up while I was addressing him in a proper and respectful manner.

"The hour of solomon list sear and confronted inc, shaxing his teached flets in my face, and I told him that her her to in timidate use, for I didn't fear him in the least. He then soized me by the coat color and struck me."

Solomous accident the deep with and kept backing toward that door, making a strip and and a struck me."

Solomons acted on the defensive and kept backing toward the door, making no effort to strike back, but merely shielding his lace from the blows that were aimed at it by the irate capitalist. Fishe beame thoroughly correct, and locking the doors estred a cane and stood within the screen door. Solomons made a demand for his had, in order that he might go down town, but Fishecentinue ordering him to get and of the house. Solomons was obliged to go down town bacchearded and buy a hat. He then swore to a complaint before Justice Horare charging Fishe with battery and returned to Fishe's house with the two Comstables. Here Solomons unde a formal demand for his trunk and other effects in his bedroom in the Fishe mansion.

A TELLING BLOW.

prevented him from any further attempts to injure me. I gave one of the Constables a written demand on Ficke which he served, and I then walked away."
Fiske seven to a complaint aiterwards before Justice of the Peace Hogue charging Solomons with battery.
The capitalist's eye was colored a heautiful peacock blue.

ONLY ONE FRESNO.

A Presperous City in the World's Raisin Center.

Last week we went to Freeno and took in the fair, the town, the vineyards, packing houses and all that is grand and beautiful in that "most favored land on carth.'

cessively hot. It is bot, but the air is a pure and dry as to render the heat not oppressive. When we complained about the heat the answer came: "This is just what we want; we expect to ship from here more than a million boxes of raisins, and but for the heat we could not come raisins." Yee, that is true; Presano cure raisins." Yes, that is true; Fresno cure raisins." Yes, that is true; Fresno is destined to be the greatest raisin producing country in the world. Raisins, raisins everywhere; great vineyards ranging in size from 40 to 600 acres, and some perhaps still greater area. Miles and miles of vineyard with all apparters and mines of vineyard with all apparters and improvements us a scale of grandeur

angles, now dry, the water having been turned out in July, as no one pretends to irrigate after that mouth, while in fact most of the irregation at Fresson is doct in the winter and many productive rine yards were never irrigated, notably the 140-acre vineyard of Thomas E. Hughes, which we visited and examined. However, the water supply is unfluided, is taken out of Kings river thirty oilds taken out of Kings river thirty oilds test of Fresso City, and is in volume about 2005 square iest. The Los Angeles river at its utmost irrigating capacity runs about four thousand square or miners inches of water, and by this comparison the unflinited sopply at Frezno becomes apperent.

the unlimited supply at Freeno becomes parents.
We arrived at the Hughes Hotel in time for the monday lunch. The hotel is large enough and line enough for New York or even Sar Francisco. It is well kept by Mr. Pearson, formerly from Santa Monica, and is owned by Thomas E. Hughes. The hotel and furnishing cost \$50,000. After lunch we were driven to the fair grounds by Mr. W. D. Grady, the ponneer Freeno attorney who made a great fortune by practicing law honestiy and with well directed lability.

law hone-sty and with well directed withity.

Mr. Grady has a vineyard of raisin grape of 400 acres area which is just coming into bearing. We arrived at the track in time for the great trat against time of Senator Stanford's wonderful 3-year-old, vanid, she breaking the record on that tro.

The drive-way from the city proper to the raise ground, about two ndles, is beautiful and absolutely free from data. The fair ground is very beautiful; the grand stand the linest in the state. The club house, the private property of a few gentlemen, is a model of confort and degence. The race track is a model, smooth as a well-swep walk in front of a gentlemant's massion and free from data.

In fact, Fresno and all of its appartenant surroundings, is a marvel of American enterprise. Nothing slipshod at Fresno. Nothing slipshod at Fresno, hother lumping, or hunding of fences a little out on the street, or roadway. Ever-thing at Fresno, including the people, is broad-grage of the broadest kind-roads 140 feet wale, and all else in proportion. We didn't see a mean or shadily looking structure at Fresno. Even Chinatown presents a most incropolitan appearance.

It is reirreshing to visa Fresno; in agreeable change. It makes a fellow feel as though he was once more in American, pather Southern, extremely generous, and so hospitable as to make one fool that it is worth something to be an American party. Thomas E. Hughes is the bather of Fresno is the lather of the contry helmid as spanking-house. Four hundred and twenty hird men work his vineyard in herces line and manage the packing-house. Four hundred and twenty hird men work his vineyard in hercest line and manage the packing-house. The profits of his packing-house. Four hundred and twenty hird men work his vineyard in hercest line and though the encessary; but we say this: The country is destined, and not remotely, to be the richest in productions on earth. The looks, there never will be, as one on the line where he were will be, as one on the house of the lines in productions

pounds of raisin grapes for each Vine; infort vine per nere.

Fresno City contains a present population of 12,003; within ten years it will contain in 0,000—sure—no speculating about this. It has the surrounding resources, and money builds either, raisins bring money, and Fresno will tend the world as a great maisin producing country. Eleven years ago Fresno had six houses.

six houses.

This is the only region of country on this coast, of which we have knowledge, where people actually grow rich in a few years off the fruits of the soil.—Los An-

COLD STORAGE.

Where Practical, and What Should Be First Considered.

refrigeration is practical only Dry retrigoration is fluctuations where fruits, vegetables, butter, meats and eggs can be used immediately, or pass from the refrigerators to immediate consumption, and fruits once preserved by the use of cold storage would have to be handled at great expense to the eligible.

or the use of cost storage would have to be handled at great expense to the shipper to keep them in a state of preservation until they reached the consumer. After having been once frozen, immediately upon thawing they spoil. So it is with every and all perishables except fish, for by frozing lish you do not destroy the animal matter, as lish frozen have been known to live as before. The Riverside Cold Storage company of San Bernardino county put in a cold storage plant several years and for the purpose of better preserving their shipments of uranges to the Eastern market, themby enabling them to pick the orange in a mora ripened state and still reag the benefit of an advanced price for having better flavored truth in the Eastern states. It failed of its object, not because fully by refrigeration, but the process was loo expensive and tim extra price obtained would not be handled successfully by refrigeration, but the process was loo expensive and tim extra price obtained would not be have the extra expense.

The large refrigerating and cold storage.

obtained would not bear the extra expense.

The large refrigerating and cold storage plants in Chicago and other large Western eitles are successful. Why? Recause the perishable and freels article is stored within their vaults in its ripened state and the market for its immediate use is large enough to consume all they can handle daily, thereby enabling them to use the different predicts stored daily to be used at some future time immediately upon being taken from the refrigerator. What Presuo wants is about two cold storage rooms, one in fruits and vegetables and one for meat, oysters, eggs, but her and one for meat, oysters, eggs, but storage rooms, one for fruits and vegeta-bles and one for meat, systems, eggs, but-ter, etc., and two good for-ton ice plants, one run by water power and one run by one run by ord; in confunction, and sun-

one run by water power and one run by steam, to work in conjunction and supply Freeno and the adjoining country with pare, conclused water fee.

Plants of this kind run be crucked here at a cost of about \$20,000 each, and will may large dividends to the investors, and at the proper time in the near future a canvass of the principal lee consumers will be made to this end, and should it receive the proper support, Freeno will rank first in all the cities of the state for the manufacture of lee and selregication and as the city grows to its prediction and as the city grows to its prediction in the proportions and finally becomes the great shipping center for ruising, whe, dried iruits, figs and many other products of its rich soils, the lee plants can be utilized to prefer these shipments, so as to bring the highest prices in the mants of the Eastern world.

Much interest is developing in the re-vival services at the Christian Church. Last Sunday morning L. N. Early preached an able and carnest discourse. Professor Coombs captured the little folks at the children's mass meeting in the afternoom. He also preached an impressive and eloquent discourse at night, the house being overcrowded. Two other preachers, Honry Shadle and W. E. Hawkins, will assist in addition to the pastor, J. W. Webb. Mrs. Coumbs any yers weetly a hymn to fine time of "Annie Laurie." Services each night at 7 o'clock, preaching at 7 30. Much interest is developing in the re-

Meeting To-Night.

The members of the Fire Departmen The numbers at the rise beginting are requested to meet promptly at 8 o'clock this evening in the rooms of the ungine-house. The election of candidates for membership and other important business will be considered.

past week.

JACK WAS ANGLY.

Shown copies of Thir. Reconstrain containing communications and culturiar tenuments exposing the lewd and immoral tendency of the proposed variety close, and the stored about for a longition. His anger was not it all diminished when he was informed by Trustee level that there was no hope, and that the propie of Fresson had not yet been characted up to the point of welcoming a leg and beer shown the Queen City of the plains.

Trustee Tombs was the only member absent from last night's meeting of the Council, but his opinion of the dive was no the right side. The following is the remainder of the business done by the Council.

pointed as a policionan. Pend.
Dennis Rieuley's pelition to open a liquor saloon at Elis G street was taid over under the rules.

MONEY IN THE STWEES.

The report of the City Engineer shows that there is a ladare due on sower construction to C. D. Vincent of \$2.00.70.

C. Bennett, the purchaser of Heath & Franklin's tent on J street, between Mariposa and krosno streets, asked the Trustees to allow the tent to remain temporarily where it is, be having and a month's rent in advance for the ground.

Street Superintendent Cummings informed the Board that he had ordered the tent to be removed, and that the proprietors of the stable adjoining complained of it because of the risk of fire.

On motion of tole, the petition was denied, and the Street Superintendent was instructed to cause the removal of the tent, within one week.

Pedlar said that he was in favor of allowing the tent to stand for the month for which Bennett had paid rent.

A protest was received from Mrs. H. P. Hedges, A. T. Stevens and other sgamst the proposed grading of N street, between Stanishas and blerced.

Cole upposed the protest and moved that it be laid on the table.

Pedlar said that the Board and ordered that grading of N street, from Ventura to Stanishas streets. A product he weekling and here with the signed by a majority of the proporty-owners on the whole line of the proposed work.

Cole called attention to the fact that Mr. Sherwood, who would have to pay \$10,000 for his share of the grading, had beld him that he would not renounistrate against may proposed street improvement. The remonatrate was laid on the table.

Ex-Senator Bones addressed the Board in his capacity as an arrhitect asking permission to creek a wooden wall temporarily on Judge Winchell's, lot on Maripess threet, mild Mrs. John Walker heigins the creetion of her new brick building in the Winchell and the Walker building in the Winchell building. The intention is to have a stairway for both the Winchell and the Walker building in the Winchell and the Walker building.

Walker building in the wheeler building.

The speaker explained that the wall was necessary to percent "the elements" from wreaking destruction on it.

Cole called attention to the fact that the ordinance required a party will.

Measure Benicks and Gilmour had compiled with the ordinance, and he could not see why a had precedent should be established. "A. D. Fisko has been arrested and fined 140 just for doing what the putilloners asked for."

"the basn't paid it yet," remarked bedlar.

Pedlar.
"No, sir; he has not paid it," replied
Mr. Cole, sorrowfully.
"The petition was laid over for one

the purpose.

It was resolved to advertise for plans and specifications for a double engine house in accordance with the recommendations of the Chief Engineer.

PAINT THE POLES RED CMNT THE POLES RED.

The Engineer also presented specifications for an electric fire alarm system with poles thirty-five feet high supporting the wires, the poise in the more central part of the city to be dressed and evinted.

painted.

On motion of Berry and Cole it was decided to have all the poles dressed and printed.

The specifications provide for goings in the engine houses and for automatic boxes, indicators and strikers, and for a bell weighing 1000 pounds.

THE GAMEWELL.

Cole asked what system was recom-mended by the Chief Engineer, and the Engineer reptice that it was a similar system to that in use in San Francisco. The matter was laid over for one week's CONSUMPTION OF GAS

CONSTANTION IN ASS.

The gas bill for the City Hall was presented for 10,000 feet for the past nomth, amounting to SE.

Pellar suggested that too much gas was wasted in the City Hall. He had seen one of the lights burning at \$0'clock

MCCORDA ANN BUNESTELL CAIN'S WIFE.

He Married a Lady in the Populou

itor of yesterday I observed a brief com-munication from "Student." He says Cain's wife was his sister, and that then cantre who was not search, and that the was not a woman on earth save live and her daughters. "Student" is severely orthodox. At the time Cain slew his brother, Adam and Evo and their desired. brother, Adam and Eve and their descendants were, as alleged in the Bible, under the especial government of God. I hardly think tool ever placed a man under thu necessity of taking his own eister to wife or living in a purpetual state of celibacy. The very thought is unnatural and remulsive. Incests such all seeds and the most of incessions practices. I am all ages have enacted laws for the purpetual similar and the does it would remounce the Biblical story of man's creation.

Many Loos varns.

The peace of the Home, Sweet Home Club was seriously threatened yesterday by the appearance of a local capitalist, well known by his rotund form and brases face. The mixture of brass and brisket assayed to hire some of the help of the club without first giving them notice. He entered the house, and while plying his tongue in the usual smooth way, relling one of the ladies how nucle assier life would be to her to foll about his havrious home with only the baby to ence for, when in stepped the manly form of the steward. MARVELOUS VARNS.

story of man's creation.

MANULOUS YARNS.

The fact is, I do not perceive how it is that a "real student" can do oftherwise than resource wholly the marvelous yarn agan out in Genesis about gardens, serpenia, angels, devils, orchards and apples. Even physical death, as grave ministers tell us, fell mon all mankind because of five's healthful appetits for good nopies. "Student" certainly grows in credulity oven more rapidly than he does in wisdom or a "knowledge of the trath." Cain, no doubt, married his wife over in the Land of Nod.

The Land of Nod was most likely a populous country. Some madden there, notwithstanding the mark on his brow, fell in love with Cain and—married him. No accounting for fastes, you know. She probably loved the exile because he was marked, and differed from the Nod-ites. "Student" infers much is due to the off-spring of the first Biblied pair. He is evidently an agnostic, but yet asserts himself with the easurance of a disciple of positiveism and the temerity of a dogmatist. "Student" should buy more kerssene and furbish up that old mid-night lamp again.

CATN'H SIN. I presume, "don't you know," that Cain had a penchant for getting into rows, and frequently had misunderstand-ines with his wife's poor relations just

Hebraw, the English, Volapak nor any other language can portray the deep degradation of his character. We advise "Sindent" to mount some other theoretical donkey on whose kack he may more mily explore the realms of birth; or, failing in this, he would do well to turn agnostic in fact, or discard the story of Cain altogether. Yours, etc..

Eastern People Say That Fresno is the Live Town of California.

Major J. II. Simpson of San Francisco, one of the everalive kind of commercial travelers, is in the city for a few days, having been absent some weeks on a vication and as a delegate to the reunion

reaction and as a delegate to the reunion of the Grand Army of the Republic recently held at Milwankee, Wis.

The Major, being in a large grocery business, he naturally look a keen interest in the products of the Eastern etaites, many of which he visited.

After leaving Milwankee he spent a few days each in Chicago, Washington, New York, St. Paul and the great Northwest. Aft through this last-named country the farmers will harvest the largest reup of core known in that region for years; but, notwithstanding their prosperity, he found no place where the business men did not make inquiries about Fresno and its raisine.

They realized that Fresna was the only real live place in California, and

that the great raisin industry of the United States was being rapidly de-reloped in Frence county. The Major thinks that within six months thousands of people from the East will seek housa-in this county, and that this city will doubtless double its population within five years.

Renfro and Himes Fined \$215 Each Yesterday.

Constables boolittle, Hance and Banta made a descent last Sunday aftertoon on a saloon on F street, between Mariposa and Freeno, kept by acolored una named Robert Marchath, and arrested another darkey named Thomas Stigall for dealing the seductive banking game of moute. Last Monday they arrested Marshall for allowing the game to be run in his place. Streettle evanination, was set in Justicella Committee of the Streettle evanination, was set in Justicella Committee of the Streettle evanination, was set in Justicella Committee of the Streettle evanination, was set in Justicella Committee of the Streettle evanination, was set in Justicella Committee of the Streettle evanination, was set in Justicella Committee of the Streettle evanination was set in Justicel allowing the game to be run in his place. Stigall's examination was set in Justice Wolowitz' Court for 2 v. 0. 0.43y.

Jim Himus and S. W. Reniro were brought lefors Justice Wolowit yesterday for examination on the charge of dealing and conducting a farry game over the killie salcon. The prisoners declined to offer any evidence in their own behalf and were held to answer the charge of conducting a branking game. They went helder the Superior Court, pleaded guilty and were flued \$215 each.

a Case Went Over. J. B. Engler, husband of Mrs. Sophic Engler, whose predifertion for schooners of beer and homely men was set forth in

Englor, whose predifection for schoners of beer and honely men was set forth in an interview published in last Sunday's Republicant. He is charged with an assault with a deally weapon on U. E. Taylor, a contractor. Englor was jealous of Taylor, and Taylor, who is a large man with thick legs, was hunted for yesterday by Englor, who was arrued with a revolver. The hearing of the evidence was postpaned until 7:30 octock last night. After waiting for a half hour beyond that time Constable Matterson informed Official Shorthand Reporter Gearhart and The Reventicas reporter that Taylor could not be found and that therefore the examination would not go on. At a quarter past 7 o clock a large man with thick legs stood on the sidewalk in front of the entrance to Justice Hogue, a huna drove up in a buggy and shouted, "Caylor!" to which the large man with the stout legs responded by leaving the Justice and going to the man in the longsy.

CORN FROM SCRIPTURE. Novel Entertainment to Be Given

The ladies of the Presbyterian Church Ane names of the recovernal charen will give a "Corn Festival" at their church next Thursday evening. Suppor will begin at 6 o'clock. The following is the unique bill of

The following is the unique bill of fare, with appropriate quotations:

"Its hat withholdelt core the people that withholdelt core the people that that rether he is the people that hat rether he is the people that hat rether he is the people of the form hulled, with cream; corned bugs, green coru, corn bread, Indian carn pudding, corn starch picture starch blane mange, with sugal and cream; corn starch cake, pop corn and corn balls, ten and coffee.

Some of the scriptural texts are unique. "Corn maketh men cheerfal,"—Jach, 1948.

"The dall as tall the old corn of the bad,"—Josh, 5311.

"And he book corn, which he bad dressed, and

MARIPOSA STREET.

many that mining words to the mining on account of heavy rains. But spring on account of heavy rains. But for all that Mariposa street is now undergoing a change, and soon the deep rhook boles from which taised clouds of dust that blinded passersby, will soon gire way to a smooth, shining surface of black bitumen.

The change will be approximated. Yesterlay morning men and leans by the duziens were set to work on Mariposa street, between K and J streets, and soon loads of dirt were faining their way to the low grounds of the railroad treavration or Pront street.

Whet night draw on the street has been lowered a foot or more and scores of men were digging out the dirt heaven the railroad ties. As soon as this lock is finished the work will continue down Mariposa street until finished.

Pleasantly Entertained.

Mr. und Mrs. Doctor Deardorff very handsomely entertained a few of their many friends at their residence, on South K street last evening. The enter-tainment was entirely informal, the tainment was entriety mornin, ito evening long spent in conversation varied by a number of excellent musical performances, both vocat and instrumental. Any feeling of restraint is impossible with such houghtable entriers as the Doctor and his estimable wife, and the evening was thorought wife, and the evening was thorough with the evening was thorough a such as a convert and the guests did wire, and the evening was thoroughly enjoyed. At 11 o'clock a very elegant luncheon was served, and the guests did not part with their entertainers until merrly 12 o'clock. The following ladies and gentlemen were present:

Mr. and Mrs. B. C. Tupper, Mr. and Mrs. S. P. Frasier, Mr. and Mrs. F. D. Poole, Mr. and Mrs. F. Trank Bedford, Mr. and Mrs. Captain Selbeck, Mr. and Mrs. Creighton, Mr. and Mrs. J. M. Coller, Mr. and Mrs. J. M. Webster, Mr. and Mrs. J. M. Short,

Complaint Against the Postoffice.

Complaints concerning the misman

Complaints concerning the mismanagement of the Fresno postolifice continue to come in daily. The latest is
made by Mrs. Caughell, an old resident
of this county, and her story shows that
the blame lies in the postoline here beyond a doubt.

On September 22d she received a letter
from Course (fold, in this county. The
envelope was addirected plainly to Mrs.
Caughell, P. O. box 342. Fresno, about
bore the Fresno postumark of September
10th, showing that it had remained in the
postoffice thirteen days before it was put
into her box. She had, visited the box
every day between the dates mentioned,
as she was expecting the letter.

"It was in reference to a land sale,"
she said, "and I lost \$2000 by the delay
in the receipt of the letter."

Virtnous, Though Bald.

BURROUGH VALLEY. Prosperity Smiling on the Enter-prising People of That Begion.

it has been so very long since we troubled you with a letter of happenings that you probably think we have left for Texas, or gone over the range. Not so; we are right on hand, like a thumb-nail. However, we wish to begall the REPUS

However, we wish to beg all the REPUB-HICAN readers' pardon for causing them to miss the literary treat that the omission of our letters has caused.

The weather is simply perfect, but then we have got used to that, because it is that way most all the time in the opper foothills. The hunder business is nearly wound up for this season, and the farmers lave mearly all quit teaming and are now engaged in preparing for the winter's cropping. A larger area will be planted this season than ever before, as the heavy yield of last season is en-couraging.

chapel organ to the schoolhouse, and we feel very tony indeed.

Still they come. Mr. Furner, Mr. Dougherty and Mr. F. J. Noble are among the new acquisitions and baxe invested in real selatic.

George Hutchings has removed to really and has gone into basises, in nature of which we did not learn.

Mr. Gillord, Jr., left for Onkland a short time ago to prepare himself for teaching in a theological school.

Mr. Gillord, Sr., will go to Fresno shortly to spend the winter, returning in the spring.

the spring.
The late rain has put the roads in fine

A Six Months' Dose. William Tully, James McCarthy and William Tully, James McCarthy and Bert Williams, the tramps who broke loses from the changang a few days ago, were sentenced yesterday by Justice Hogus to is months' imprisonment in the County Juil. The charge agoinst them was juil-breaking. The way of the man who makes a police officer sweat in a long chase is indeed hard.

Theodore Solomons, the lightweight Theodore Solomona, the Ingowegue ex-private Secretary who blacked and polished capitalist. Fiske's eye last Mon-iday night, was arrested yesterday norm-ing out a charge of battery preferred by Fiske. Fiske's case has been set for this Industry and Solomon's case for 3 o'clock the same day.

C. C. Miller, a brakesman, while ngaged in coupling freight cars near the railroad depot hat evening, had the index and middle fingers of his left hand jammed between the cars. The injured members were dressed by Dr Yancey.

THE FRESNO DAILY REPUBLICAN IS & prising, progressive, fearless and—par-don us—sensational II is, withal, pros-perous.—Madera Mercury.

MELINDA ANN.

Religious Shots.

For the past year I've had no end of trouble with Ruth Brown. She's always comptaining about something or source body. However, for the past few months she's been in hot water, so to speak, about her shoes.

The agnostic wholesale house of "Don't Know & Co." sold her a pair made of a neu kind of rubber, warranted to jump over any kind of an orthodox feure, without injury to the weaver. But, alast

She then got a pair of Methodist shoes on the most favorable terma—to pay for them in six months, if they suited perfectly. But so, she must return them, because they were a little too warm, and spells of "squesking" so loadly that one could hardly "hear themselves think"

NOT A PERPECT FIT.

as well as mous.

She rame in soon after and said she had tried Congregational shoes, but they weren't a perfect fit. The main parts were sound enough, she thought, but they were too large in the anked. The seams were fixed to "be not out" or "lake in"—just to suit the wearer.

Another (thing: Jonathan Bonjamin Edwards (thut's beau) wouldn't cone inside the gate on Sunday when she had them or; he was a man of sharp honor, and so long as she stepped to the unitor key of the old "Bluo Lawa"—where a man dar'n't kins his wife or look at his sweetheart on Sunday—well, he said he didn't care to have a mortgage on his eyes, or his lips either, for their matter. THE VILLIN STILL CURSITY HER.

MYRS. Schenk testified that about 8 o'clock in the evening manued in the complaint she had been down town on an ormud, and stood talking for awhite under the guslight at the corner of Front and Maripaes streets with John Smith. Lederer was sitting on the edge of a watering trough a few yards away, and got up and followed her when she left. Smith on her way her husband's bakery armst the railroad truck.

She became aware of his close proximity, so to speak, by feeling a warm breath on her cheek and Lederer's hand on her cheek and Lederer's hand on her

syncracies.

113 YEARS OLD.

A Woman Dies in Merced County ut That age.

Sugan Baron (colored), who died at the home of her grand-daughter on Fri-day morning, October 11th, had reached the wonderful age of 113 years and month, says the Merced Argas. The de-ceased was a native of Jackson county, Georgia, and there is good proof that she was of the age reported. She was an intelligent woman, having been raised by one of the best families of that day. Sho

High License Stands.

At the request of several Merced busi At the request of several Merced business men, the Board of Supervisors held 19,00 and 19,00 of hearing further argament in relation of hearing further argament in relation to the liquor license rates. District At- 15 00 F. Peck, spoke in favor of the rate as 182 05 fixed by the Board on the 7th instant, 103 12 while R. H. Ward appeared in behalf of 55 those favoring a lesser rate. A large audient was present, among whom here 28 70 several ladies. The result was that the Hoard refused to reconsider any part of 702 00 fixed as originally passed—3100 per 60 00 month for the insuling year. The ordinance becomes a law fifteen days after its passage.—Merced Star.

A Cold Night for Pearson.

H. H. Penrson of the Hughes Hotel received a telegram from his wife in the cenived a telegram from his wife in the
East, a few days ago, autonoming that
we would start for Fresno on the following day. Mr. Pearson figured out on the
railroot time-table that his nic would
arrive in Sacramonto to-night, and he determined to give her a pleasant surprise
weeting her in the City of Yellow
Drinking Water.
Was Pearson was not surprised, for she
arrived last night. The train which carrived her and that which carried her has
band passed each other on the road.
It was a cold night to Pearson.

A Big Flume Project.

Cawan Sample, J. W. Heiskell, C. D Davis and Supervisor Letcher have formed a company with a capital stock of formed a company with a capital store of \$100,000 to bring water from Hig Bry Ureek to Dry Creek Aendamy and to a point near Shortridge's store. The sup-ply will irrigate two townships. A flume will be built from the summit of Pine Ridge to the bend of Big Dry Ureek, and a small flume for freighting humber will be extended to the plains.

That Funny Monkey.

The Brass Monkey will perform his antics at Riggs Theater next Sunday evening. An Rastern paper says of the play: "Charles II. Hoy's new face, 'A Brass Monkey,' was given at the Bijon Theater last evening in the presone of an anneed milience, which com-pletely packed every available inch of this little house. Mr. Hoyl's ingenuity in the conception of comical misadrem-tures is not yet-exhausted, and there was fun enough in this new piece to keep the

spectators thoroughly entertained. Charles Breu was remarkably effective with his dry, denure form of homor, and mads the part of Jonath highly popular. His topical song, 'When You Come to Trinke of It,' was much more laughable than compositions of that sort usually sare. Miss Flora Walsh, as 'Regence,' was a deficious picture of moreout, but Irodiccome and mischiecous young maid-enhood, and her lovely, shillsh face, fascinating eyes and flosome figure would have carried to success a much worse piece than 'A Brass Monkey.' The songs and the dances were much applanted, and the farce is an undoubted success of its kind.'

SWEET CHEN

SWEET CORN. Novel and Enjoyable Entertainment Last Evening.

The Corn Festival by the balles of th First Prechyterian Church last night drew a large crowd, and the corn supper and the literary and musical entertain ment were very enjoyable. The not proment were very enjoyable. The net pro-ceeds will aggregate about \$50, but thought who attended bad \$50d wurth of pleasure. The following was the programme: Plano solo, Miss Nellie Armstrong; recl-tation, "Popping Corn," Miss theric Mr-Domad!, say, "Aurhaned," Mr. Arm-strong; yocal daet, "The Bridal Morn," Mrs. C. J. Kirk and Miss Hallie Smith; recliation, "The Auman Scene," Miss Mande Therec recitation, "The Cow," J. W. Shathuek. The last was a very comigal effort, and received an enthusiastic recall.

11. H. Peurson, Manager of the Unique Hotel, went to Sarctmento yesterday to meet his wife, who is on her way from the East. Mrs. Pearson has been absen-for nearly three months, visiting her daughter in Checimant, Ohio.

MARIPOSA STREET (SIGN OF THE BIG WATCH.) The Porteous Gang Plow.

We were first induced to make these plows at the request of one of the Owens Bros. of Big Dry Creek, who felt they were taking too many chances in using the cheap tools usually sold for this purpose, and who furnished us the pattern. As we have no desire to compete with cheap work, our aim has always been to make a high-class plow; and we would call particular attention to the seeder, which has gaspipe roller, so that the box may be filled with grain without danger of choking, which so frequently happens with the wood roller. This pipe is fitted with adjustable agitators of our own pattern,

and as the seeder holes are gauged to the hundredth part of an inch, they will sow exactly the same quantity of grain. We use all high wheels, and our brake has stood the test

of years.

For prices of the various sizes inquire at the shops. Plow Extras and Foundry Work of all kinds.
For weedy land try the BECKWITH ROLLER DRILL which positively will not clog, and is the most durable drill

in the market. Price reduced this year. Fresno Agricultural Works.

And sold on the Best Terms of any Mill in the market. E. I. HUTCHINSON, Agt.
